You are invited to do what you do best as part of a film, TV pilot, book, radio and internet show. A musical play will be produced that may require your specialized knowledge.

An Invitation to be in a motion picture: **you play yourself.**

Not1ofthe6 is the story of six kids that create 700 jobs in 10 locations and fill one million vacancies in aviation on \$4.80 through the use of leverage.

I am Ron Clark and I represent the baby boomers, born 1946-64. Our bucket list has one item that will require your assistance or someone like you with your specialized knowledge; make sure the baby boomers are not the last generation to live better than their parents. To reach our goal will require restoring the middle class to the richest in the world in all aspects of life.

WE ARE GIVING AWAY 8 TRILLION DOLLARS OVER THE NEXT 20 YEARS.
WHERE DO YOU SEE YOURSELF IN THE PROCESS?

Transportation has been selected as a starting point with aviation as the lead role in our process. One million jobs need to be filled; over the next twenty years 350,000 pilots and 650,000 will have job openings. The cost of educating a pilot or mechanic will be lowered 40% because of our efforts. The sum required to reach our goal is twenty billion dollars, one quarter of one percent of the boomers giving. Another billion dollars will be invested that restores the twenty billion dollar gift minus \$4.80.

The following people will assist you from the state of Texas along with people from the remaining states and 17 countries.

- **JJ and Jeff Parker** of Georgetown, TX: President and VP of The Last Responders of Texas, a 501(c)(3) organization that specializes in fulfilling dreams after a natural or man-made disaster.

Upon landing the kids gets their pilot's license and at no charge to all family and friends, a feast is shared, thanks to the sponsors.
